## Part 11: Important Information / Privacy Information

### Privacy Notification

- 1) The information you provide in this application is personal information for the purposes of the *Privacy and Personal Information Protection Act 1998* which will enable Council staff (or any appointed agent), and any relevant state agency, and the community to consider/assess your application under the *Environmental Planning and Assessment Act 1979* and other applicable State legislation. The supply of the information by you is voluntary, however, if you cannot provide or do not wish to provide the information sought, your application may not be accepted. You have the right to access and have corrected information provided in your application. Please ensure that the information is accurate and advise us of any changes. Address enquires concerning this matter to Council's Public Officer.

### Access to Information

- 2) The *Government Information (Public Access) Act & Regulation 2009* states that it does not apply to so much of the information as consists of:
  - (a) *the plans and specifications for any residential parts of a proposed building, other than plans that merely show its height and its external configuration in relation to the site on which it is proposed to be erected, or*
  - (b) *commercial information, if the information would be likely to prejudice the commercial position of the person who supplied it or to reveal a trade secret.*

Council considers that persons inspecting the plans of a proposed development that may impact on their amenity cannot effectively do so without knowledge of the basic internal layout e.g. Living rooms, bedrooms etc where privacy from overlooking may be a problem. Accordingly, applicants and owners are requested, as part of signing this application, to give permission for persons, as part of the Notification Process, to inspect the internal plans accompanying the application. Council will not permit copies to be taken or extracts made of internal plans. Internal plans of residential premises will not be published on Council's website. As Council is unlikely to be aware of sensitive commercial information, it is the applicant's responsibility to ensure that such information is clearly identified and separate from other application documentation, and any requirements relating to disclosure of the information specified, or the information will other wise be made publicly available by Council.

### DA Tracking and Notification

- 3) Online DA tracking is a software product that allows all customers to view plans, details and to track the progress of a Development Application throughout the assessment process. It represents key milestones in the Development Application process however, it is not a detailed history. Persons wishing to confirm information in detail should contact Council via either the email facility at the bottom of the Development Application tracking window, or in writing in order to obtain a written response. The information that can be viewed online is clearly labelled in the relevant application checklists. Please refer to the Development Application Checklist at the back of this form. **All items labelled 'Online DA Information' in red will be publicly accessible through Council's website. Please also refer to the Copyright note.**
- 4) Development applications will be publicly notified/advertised in accordance with Council's Notification Policy. The policy is available on Council's website Council's Development Control Plan (DCP).

### DA Decision Making

- 5) If in the opinion of Council Officers any significant issues of public interest or policy and material impacts are identified, the application will most likely be reported to a Council meeting, otherwise qualified staff will made a decision under delegated authority.

### Copyright Note
