## **Pricing Policy**

The intention of the Pricing Policy is to disclose to all stakeholders the rationale behind the fee established for any Council product or service including:

- the true cost of providing a product or service;
- the extent to which the user or person benefits from the product or service and therefore the extent that the cost of the product or service will be subsidised from rate revenue. i.e. the public component or community service obligation;
- the extent to which the user or person benefiting from the product or service, will be asked to contribute to the cost or its provision. i.e. the user contribution; and
- strategies for moving the current fee to the position determined by the policy, i.e. the target cost recovery.

The underlying principle of the Pricing Policy is that the role of property rates and general purpose income will be to finance the public good component of services and attend community service obligations, and the users will be called upon to finance the cost of producing goods and services from which they derive a benefit.

The Pricing Policy, details the above elements for every product or service supplied by Council, and can be viewed on Council's website.

## **Goods & Services Tax (GST)**

The following schedule of fees and charges has been prepared using the most current GST information. Fees and charges with GST included are shown where appropriate.

**Y = Deemed to be taxable and fees/charges include GST**

**N = Deemed to be non-taxable and fees/charges exclude GST**

## **Pricing Categories**

Council has classified the Fees and Charges in this booklet under the following categories.

### **(Z) - Zero Cost Recovery**

This good/service is provided at no cost. The costs are met entirely from property rates and general purpose income.

### **(M) - Minimal Cost Recovery**

The price for this good/service is set to make a small (less than 50%) contribution towards the operating costs, both direct and indirect, or providing the good/service. The remainder of the costs are met from property rates and general purpose income.

### **(P) - Partial Cost Recovery**

The price for this good/service is set to make a significant (more than 50%) contribution towards the operating costs, both direct and indirect, or providing the good/service. The remainder of the costs are met from property rates and general purpose income.

### **(F) - Full Cost Recovery**

The price for this good/service is set to recover the total operating costs, both direct and indirect, or providing the good/service. Indirect costs are to include taxation equivalent payments, where applicable, in accordance with the principles of National Competition Policy.

### **(L) - Regulatory**

The price for this good/service is a statutory charge set by government regulations. These charges may change during the year as legislation is updated. The amounts in this document are indicative of the legislation at the time of printing.

### **(R) - Reference Price**

The price for this good/service is set by reference to prices charged for similar goods/services by like councils or competitors.

### **Factors considered in determining fees and charges include:**

- The cost of providing the service or good;
- Local Government Regulations;
- Market conditions and prices; and
- Whether or not there is a community service obligation.

## **DISCLAIMER**

a) The General Manager and Executive Directors reserve the right to alter fees and charges included in this booklet where that person is of the opinion that it is reasonable to do so.

b) While all care is taken to reflect current regulatory charges, they are subject to change by Legislation. The timing of legislative changes is outside the control of Lismore City Council.

## Partnerships, Planning & Engagement

### Built Environment

The fees and charges for Development & Compliance applications are composed of statutory fees, or fees that are charged in an effort to recover the cost of providing the actual service. With the introduction of electronic lodgement processes in 2017, Council will prepare an invoice for your application once it is received electronically. Applications are deemed to be lodged when the invoiced fee is paid. Where the cost of processing an individual application significantly exceeds the original application fee paid, Council reserves the right to recover the additional costs incurred by Council (including additional inspections that have been required) through the issue of a further invoice for the extra work at the adopted rate below for professional services.

In the schedule below, the 'base rate' has been calculated to include components of administration, record keeping, site inspection/verification, professional review and final sign off.

### Professional Service Fee

(e.g confirming compliance with approved plans or conditions or consent, Section 7.11 Levy quotes, compliance cost recovery/notices) (requiring search of records, analysis of information, written response): e.g existing/continuing use, zoning or consent history, permissible uses explanation, purchase information, fire safety advice and upgrade reports, food safety reports, on-site reports, review of vegetation management plans and reports, access reports and advice and the like

## How a Refund will be Determined

### 1. Development Applications and IT Levy

A Where an application is withdrawn after the notification and assessment processes have commenced and prior to the determination, a refund of 25% of the fee may be given.

B Where an application is withdrawn prior to notification and assessment processes commencing, a refund of 75% of the fee may be given.

C Where an application has been determined, no refund of the fee will be given.

The Executive Director may vary the above where in that person's opinion a variation is warranted due to the special circumstances of the case.

Note: Compliance Levy to be fully refunded.

### 2. Applications for Building Certificates, On-Site Sewage Management Applications, Food and Health Applications and Other Applications including Section 138's and Section 68, Authorisation and the like.

A Where an application is withdrawn or cancelled prior to site inspection, or prior to the matter being investigated, Council retains an administration refund fee of \$35.00 to cover its administrative costs in the matter.

B Where a site inspection has been carried out or the matter has been investigated then no refund shall apply.

### 3. Construction Certificate

A Where an application is withdrawn prior to commencement of assessment, the full construction fee will be refunded.

B Where an application is withdrawn after assessment has commenced, 25% of the construction fee will be refunded.

The Manger – Built Environment (or their delegate) may vary the above where in that person's opinion a variation is warranted due to the special circumstances of the case.

## Reduced Application Fees

### Reduced application fees for development on Council-owned Land

In respect of development provided by community based non-profit making organisations on Council-owned land, the following concessions apply for all development application, construction certificate, archive and compliance and occupation certificate and ancillary approval fees:

- a) Where the facility is for the exclusive use of the community based non-profit organisation – 40% concession.
- b) Where the facility is available for general public use – 80% concession.

### Reduced application fees for development by Community Based Non-Profit Organisations

In respect of development provided by community based non-profit making organisations on private land, the following concessions apply for all development application, construction certificate, archive and compliance and occupation certificate and ancillary approval fees:

- a) Where the facility is for the exclusive use of the community based non-profit organisation – 24% concession.
- b) Where the facility is a Council Bush Fire shed – 80% concession.

Evidence required to satisfy the above criteria for a “non-profit making organisation” comprises a Certificate of Incorporation or other documentation accepted at the sole discretion of Council.

### Reduced application fees for improving accessibility to buildings

The General Manager may agree in writing to waive or refund development application, construction certificate, archive and compliance and occupation certificate and ancillary approval fees following a written request, where he/she is satisfied that the proposal is being made for the primary purpose of improving accessibility to, and within, buildings.

Note 1. The above concession will not apply to access improvements that are triggered by compliance with the Building Code of Australia for other works.

Note 2. Any request for a fee to be reduced or waived in accordance with the above provisions must be received within 12 months of the date of lodgement of the application.

### Reduced application fees for events on Council land

Council Policy 8.11.3 "APPROVALS AND USE OF LAND OWNED OR MANAGED BY COUNCIL" states: Fees in accordance with Council's adopted fees and charges will apply as referred to in the relevant guidelines. Exemptions from these lease/hire/licence fees will apply in the following circumstances only:

- a) where the applicant is a registered charity or a non-profit organisation; or
- b) where the footpath trading is conducted as part of a Council sponsored event relating to the promotion of the area in general;
- c) At the discretion of the General Manager (or their delegate)

Note 1. Application fees associated with the cost incurred by Council of assessing statutory requirements under the Local Government Act and Roads Act are not covered by the above exemptions, and adopted fees and charges unless waived in accordance with delegated authority.

Note 2. At the Council meeting on 13/12/16 it was resolved that application fees for minor events currently charged for local not for profit charities to conduct fundraising activities on Council land be waived. "Minor events" are not defined, but would include footpath trading/fundraising or other small scale/low impact activity that does not involve more than a few people at any one time and is deemed low risk in relation to s.68 and s.138 approvals and assessment required.
