Application Checklist

What is the Project Title?*

What is the Project Brief?*

This should be brief; less than 25 words. However, it should also briefly outline your vision for the project and its expected outcomes.

How will you inform and communicate with the community about your projects?*

Please upload a map showing the proposed work areas.* 

Indicate the general theme(s) for your project proposal *

- Native habitat health and connectivity
- Environmental improvements associated with regenerative farming
- Nature-based measures that assist flood and drought mitigation, build landscape resilience, and improve

catchment health

- Community engagement and agricultural industry capacity building

Indicate the main activities*

- Environmental weed control and initial follow-up maintenance
- Bush regeneration works to restore areas of native vegetation
- Planting new areas - Revegetation with local native plants and associated materials such as mulch and tree guards.
- Purchase fencing materials (eg construct fencing to manage grazing pressure in areas of land degradation, remnant vegetation or exclude livestock from dams, riparian and other sensitive areas).
- Purchase Off-stream stock watering fixed equipment (eg to protect waterways from stock impact. Equipment such as base fill, troughs, tanks, piping and fixtures).
- Planning for and the application of Ecological or Cultural Fire practices.
- Planning for and implementation of landscape hydration works.
- Earthworks with clear environmental benefits such as sediment traps, constructed wetlands, leaky weirs, and use of low impact soil interventions such as the Yeoman's plough.
- Plantings for erosion stabilisation using local native plants considered indigenous to the site.
- Other erosion control works that employ industry-recognised geotechnical advice.
- Stabilising stock crossing points for natural waterway improvement.
- Group and community engagement events that bring people together to learn, share knowledge, skills and resources.
- Other activity that exhibits a high public and environmental benefit.

Application Checklist

As a community project we expect works to be undertaken across a number of different rural properties. These properties might be in the same geographic area or may suit a common theme across the landscape.

Please provide details of ALL the properties that will be involved in your project.

Information about the properties that will be involved in the project.

Landholder's Name*

Property Address*

Lot and DP number

Summary of Proposed Works*

Provide details of proposed on ground works. (e.g. Bush Regeneration works, Plantings, etc) and details of the outcomes of these works (e.g improved healthy of riparian vegetation)

Estimated area of Proposed Works in square metres

Has the landowner provided consent for works to be undertaken on their

Yes

No

property as part of this project*

Is the landowner a member of the applicant organisation?

Have any (similar) works previously been conducted on the property

Please outline both the landowners' capacity to contribute to works during the project period and the landowners' capacity to maintain works after the completion of the project

What are the approximate funds sought for this property over the project period*

Is this property Public or Private property?*

Outline how this landholder intends to provide inkind value to the whole project.*

Application Checklist

RLI Community Group Project funds up to \$50,000 (ex GST) are available for projects up to a 3-year time frame, starting in July 2025. Additional funds may be negotiated where an application exhibits outstanding environmental outcomes and value for money. Applications will be accepted for shorter timeframes and for less than the maximum amount of grant funding.

An additional 10% of the grant (up to \$5000) is available for the Group administration and project delivery costs.

An additional \$2000 may be sought to deliver community field events and extension activities.

The application should provide an estimated schedule of works across all proposed work sites i.e. what ACTIVITY will be done, when and where? An estimate of the cost needs to be provided for each project work site. Upload your budget worksheet here.

What is the Total Amount of grant Funding sought over the project period?*

Please download and complete this budget template
